WHAT DO YOU WANT TO ELIMINATE?

TOTAL VEGETATION KILLERS WITH SOIL STERILIZATION

These products sterilize the soil and kill vegetation, weeds and grasses for one or more seasons. No mowing, or weed-whacking again – wow!

WEED-BE-GONE Aerosol Spray Herbicide Potent, fast and effective killer of weeds and grasses in a convenient aerosol can.

WEED-B-GONE Yearlong Residual Control, RTU This ready-to-use, non-selective herbicide kills a wide variety of annual and perennial weeds and grasses for a year or more. Contains potent 2-4D and Bromacil.

WEED-O-KILL Yearlong Residual Control, RTU This ready-to-use, non-selective weed killer not only kills existing vegetation, but it also completely sterilizes the soil for a full season or more. Contains Prometon.

WEED-O-CIDE 1.2% Bromacil Residual Concentrate Dilutes 1:10 with water. Weed-O-Cide is strong enough to eliminate hard-to-kill weeds, providing long-term, full season root kill.

PERMA-GRAN Granular Weed and Vegetation Killer A convenient, easy-to-use dry product that completely sterilizes the soil for a full year or more. Contains a very high, 4% concentration of Bromacil.

HYVAR XL Water Soluble Herbicide A highly-concentrated liquid herbicide that may be diluted up to 100 times with water.

TOTAL VEGETATION KILLERS WITHOUT SOIL STERILIZATION

These products kill all unwanted plant life, without adversely affecting new plant growth or nearby plants and trees. They become inactive when they come into contact with soil – no leaking, drifting or bleeding.

BIO-TRIM Aquatic Weed, Grass and Algae Killer Kills aquatic and floating weeds in ponds, lagoons, drainages, ditches and canals without harming fish or soil.

CONTACT KILL All-New Anti-Pollution, Non-Selective Vegetation Killer Contact Kill is a new herbicidal chemical that kills plant growth by absorption through the leaves, without damaging the soil. Its action is quite rapid, with the effects being visible within a few days.

BUCCANEER PLUS Non-Selective, Broad-Spectrum Weed Control

Contains 41% Glyphosate, making it very effective against grasses, broadleaf and woody plants. Highly concentrated, Buccaneer Plus can be diluted up to 100 times with water.

SELECTIVE AND BROADLEAF WEED KILLERS

These products are used on ornamental grounds to eliminate migrating seed pod plants.

BRUSH-O-KILL Broadleaf Weed, Brush and Stump Killer This water-soluble, concentrated selective herbicide kills broadleaf weeds and woody, brush-like thistles and poison ivy without harming desirable grasses and turf. Brush-O-Kill kills through absorption by the weed foliage, and can be applied with hand sprayers or large tank sprayers.

WEED-O-SELECT Complete Broadleaf Control A water-dilutable, concentrated selective herbicide that kills a wide variety of broadleaf weeds without harming existing decorative turf or grasses. Designed for application on lawns, parks and ornamental turf areas. Weed-O-Select kills poison oak and poison ivy, buckhorn, clover, Johnson grass, wild garlic, dandelion and wild onion.

WEED-O-SELECT Aerosol Selective Weed Killer Upside-down spraying aerosol can with a high-intensity actuator to accurately pinpoint weeds without hitting desirable plants, and helps to avoid over-application. Highly effective on broadleaf weeds like chickweed, clover, dandelion, elderberry, hemp, honeysuckle, morning glory, poison ivy, poison oak, and much more.

FERTILIZERS

CHEMCO GREEN Liquid Fertilizer Helps build thick, green turf from the roots up.

- **Chemco Green Pre-Season 20-2-3 Quick Green Early Spring Feed Liquid Fertilizer** Provides even, slow release of nutrients to turf grass. High nitrogen content promotes lush greening and fast turf growth. Nutrients last longer and are evenly distributed without causing browning. Recommended for spring and early summer application.
- **CHEMCO GREEN ALL-SEASON 16-8-4 All-Season Mix Liquid Fertilizer** Ideal for all seasons. This liquid formula goes directly to the root zone, promoting vigorous, sustained plant growth.
- **CHEMCO GREEN WINTERIZER 4-12-8 Liquid Fertilizer** High phosphorous levels promote root development, while high potassium level encourages proper stalk development. An ideal late-season winterizer.

IRON-MITE Chelated Iron Supplement Reduces or reverses the pale green or yellow discoloration associated with chlorosis. Provides iron in a form that is immediately available to vegetation, and remain in the soil for extended feeding. Compatible with tank mixes of most fertilizers, insecticides, fungicides and penetrating acids.

SUPER SPREAD Non-Ionic Turf Conditioner This additive makes grounds care products more effective. It is a penetrant, additive and adjunctant that increases the compatibility and spreadability of multi-chemical herbicide, fungicide, fertilizer, iron and micronutrient solutions by holding chemicals in a more even suspension for a more complete mix. Super Spread contains a unique sticking agent that holds chemicals on leaves and grasses for better absorption and run-off. Nozzle clogging is also greatly reduced with the use of Super Spread.

PLANT GROWTH RETARDANT

RETARD Dramatically reduces the rate of growth of grasses, trees, shrubs, ivy and plants. Allows you to spend less time maintaining areas treated with Retard and more time for other jobs, reducing costs and wear and tear on equipment. When used in areas that are dangerous, difficult or inaccessible, Retard lets you and your budget take a break from mowing. Great on hillsides, around lakes and ponds, or other potentially dangerous situations.

ASPHALT, CONCRETE AND CRACK REPAIR

ASPHALT PATCH This all-weather asphalt patching compound repairs potholes, chuckholes, cracks and ruts in blacktop surfaces. Great for roads and parking lots.

CONCRETE PATCH A latex-type filler with silicone, Concrete Patch fills rough, cracked and painted concrete, masonry, brick and stone. It is self-bonding, permanent and stronger than concrete. Cracks in concrete swimming pools, patios, sidewalks and driveways.

CRACK FILLER A rubberized formula that expands in joints to fill cracks in concrete parking lots, streets, roads and driveways.

THE CHEMCO CHALLENGE

*We challenge you to present a cleaning
problem we cannot solve.*

Chemco has the solution without pollution.
